PIYUSH CHURHE

churhepiyush@gmail.com | LinkedIn | GitHub | 7498071082

SUMMARY

Computer Science Engineering student with practical experience in **Java development, Spring Boot framework, Full Stack Web Development**, and **Cloud Deployment**. Proficient in **REST API development**, **Database Management, Authentication and Authorization**, and modern web technologies.

EDUCATION

G. H. Raisoni College of Engineering, Nagpur (GHRCEN) **Nagpur, MH**
B.Tech in Computer Science and Engineering (CSE); ***CGPA: 8.63/10.00*** *Aug 2023 – July 2026*

Government Polytechnic College, Sakoli (GPS) **Bhandara, MH**
Diploma in Computer Technology (CM); ***Percentage: 84.04/100*** *Aug 2020 – July 2023*

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, PHP, C++, SQL, HTML5, CSS3
- **Java Technologies:** Spring Boot, Spring Framework, Spring Security, Java Swing, JDBC
- **Web Technologies:** REST API, RESTful Services, JWT Authentication, JSON, XML, HTTP/HTTPS
- **Databases:** MySQL, PostgreSQL, MongoDB, MongoDB Atlas
- **Cloud Technologies:** Amazon Web Services, AWS EC2, AWS S3, Cloud Computing, Cloud Deployment
- **Development Tools:** Git, GitHub, Postman, IntelliJ IDEA, Visual Studio Code
- **Software Engineering:** Data Structures and Algorithms, OOP, DBMS, Computer Networks, SDLC

PROJECTS

Weather Dashboard Web Application **Github**
Tech Stack: *Spring Boot, MongoDB Atlas, Spring Security, OAuth2, OpenWeatherMap API, Thymeleaf, Bootstrap, Chart.js, Leaflet.js, JavaMail, HTML/CSS/JavaScript, Maven, AWS EC2/S3*

- Developed **full-stack Spring Boot application** with **real-time weather data** using **OpenWeatherMap API** and **MongoDB Atlas**
- Implemented **user authentication system** with **OAuth2 integration** (Google/GitHub) and **role-based access control** (USER/PREMIUM/ADMIN)
- Built **interactive weather comparison tool** for **multiple cities** with **responsive frontend** using **Bootstrap** and **Chart.js visualizations**
- Deployed **production application** on **AWS EC2** with **RESTful APIs, admin panel**, and **premium subscription features**

Secure Task Management Web Application **Github**
Tech Stack: *Spring Boot, MySQL, JWT, Spring Security, HTML/CSS/JavaScript, Bootstrap*

- Developed **full-stack web application** with **secure user authentication** and **role-based access control** using **Spring Security**
- Built **RESTful APIs** for **task management operations** with **CRUD functionality** and **JWT token authentication**
- Created **responsive frontend** with **administrative dashboard** for **user and task management**
- Implemented **secure login system** with **database integration** using **MySQL** and **Spring Boot framework**

CERTIFICATIONS

- **Spring Boot 3, Spring 6 & Hibernate Course** | Udemy | Certificate
- **AWS Cloud Practitioner Essentials Course** | GeeksforGeeks | Certificate

KEY ACHIEVEMENTS

- **CGPA: 8.63/10.0** in Computer Science Engineering
- Successfully **integrated multiple third-party APIs** in **production-ready applications**
- Achieved **seamless cloud deployment** with good performance
- Implemented **robust security features** including **OAuth2 authentication** and **role-based access control**
- Optimized **application performance** through **efficient database design** and **query optimization**
